F.6 12/22

Chobham
Surrey.

E971

22nd October 85.

Dear Sir,

I have wondered since last year in June 1984 whether to mention to you of my extraordinary sighting, and whether it was any worthwhile information too.

It happened at around 10.30 pm while I layed in bed gazing at the window between the curtains thinking. I then saw small lights which I thought were aeroplane lights as usual but it suddenly went down.

I rushed up to the window and drew the curtains back and saw it all with such wonder and amazement

I have never in my life seen anything like it. There were about five red lights all zig-zagging up and down the same time as the red lights flashed at certain points of positions. The speed was almost as far I could remember like the speed of lightning, then suddenly one light zoomed to the left in a long straight line.

I was so excited and over the moon

I rushed to my mother and father who were reading a book in bed and called "quick, quick look out of the window," they took so long getting out of bed, when I looked out of the window again to my dismay the wonder had gone. I was so disappointed that they did not see it, as now, who is to believe me.

I saw it in the direction from our home on [REDACTED] to Chobham, and they seemed much further away behind Chobham.

I promise that this is what I have seen and I am no dumb twit.

What strikes me is your perhaps uncanny quietness on the subject of UFO's towards the people of this country. This is bound to make many jump to all kinds of conclusions as to why this is so, and perhaps to the wrong conclusions too.

In my opinion this kind of behaviour makes me wonder perhaps you know more mysteries than you make out to be or perhaps other reasons.

Well, I like to be open-minded in a balanced manner even after all the several UFO books I have read.

It is fascinating to think we're landed on the moon, maybe an person from UFO is walking amongst us.

Yours sincerely,

REPORT OF AN UNIDENTIFIED FLYING OBJECT

12/2

A. Date, time and duration of sighting. (Local times to be quoted).

19 October 11.30 pm until 20 October 3.00 am

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Large number of objects, various sizes and shapes in many colours.

C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).

Bisley range.

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye, binoculars, telescope.

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).

Overhead

F. Angle of sight. (Estimated heights are unreliable).

Observer suggests a possible height of 60,000 ft, but difficult to assess.

G. Distance. (By reference to a known landmark wherever possible).

N/known

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

Described as "many objects giving an aerobatic display"

J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

Clear

K. Near-by objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

L. To whom reported. (Police, military organisations, the press etc).

MoD Sec (AS) 2a

M. Name and address of informant.

Section 40 [REDACTED]

Address not given

Telephone Fulmer

Section 40

N. Any background on the informant that may be volunteered.

Ufologist of 25 years standing

Ex pilot.

O. Other witnesses.

A number (unspecified) of friends.

P. Date and time of receipt of report.

DIS

file
12/2

E94

- A. Date, time and duration of sighting. (Local times to be quoted)

3 OCT 85 2025A Approx 5-6 minutes.

- B. Description of object. (Number of objects size, shape, colour, brightness sound smell etc.)

One object. No physical shape discernible, however thought to be round due to 6/7 bright lights round perimeter. Silent.

- C. Exact position observed. (Geographical location Indoors or outdoors, stationary or moving) Initially eyeing along A30 in Zellah. Then dismounted to watch.

- D. How observed. Naked eye, binoculars, other optical device, still or movie camera.)

Naked eye.

- E. Direction in which object was first seen. (A land mark may be more useful than a badly estimated bearing)

Coming from over sea in Falmouth area, heading toward Saltash.

- F. Angle of sight (Estimated heights are unreliable)

Only thought to be high.

- G. Distance (By reference to a known landmark wherever possible)

Not able to estimate.

- H. Movements (Changes in E,F and G may be of more use than estimate of course and speed)

Generally steady, one slight turn observed towards onlookers, then away again.

- J. Meteorological conditions during observations. (Moving clouds haze mist etc.)

No significant cloud.

- K. Nearby objects (Telephone lines high voltage lines reservoir, lake, pool, swamp or marsh, river high buildings, tall chimneys, steeples spires, T.V. or radio masts, airfields, generating plant factories pits of other sites with flood lights or other night lighting)

No major buildings other than residential.

No pylons or masts.

L. To whom reported (Police military organisations the press etc.)

Base Operations, Royal Air force St. Mawgan.

M. Name and address of informants

Section 40

(14 yrs)

Section 40

(14 yrs)

N. Any background the informant may volunteer.

Informants in group of 6 cyclists, all of whom saw object. Living close to St. Mawgan, all well used to seeing aircraft, unlikely to confuse object with aircraft.

O. Other witnesses

No names obtained of other lads.

P. Date and time of receipt of report.

3 Oct 85 - 2030A.

ANNEX A TO
SOP 502

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A.	Date, Time & Duration of Sighting	29 Sep 85, 1030 hrs 5-10 minutes.
B.	Description of Object (No of objects, size, shape, colour, brightness)	Long and thin with two fins at the back. Silver/White
C.	Exact Position of Observer Location, indoor/outdoor, stationary/moving	Outdoor, walking along Kingston Road, Shoreditch
D.	How Observed (naked eye, binoculars, other optical device, still or movie)	Naked eye
E.	Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Moving towards the City over Shoreditch Church
F.	Angle of Sight (Estimated heights are unreliable)	80 degrees
G.	Distance (By reference to a known landmark)	500 yds to E.
H.	Movements (Changes in E, F & G may be of more use than estimates of course and speed)	Very fast.
J.	Met Conditions during Observations (Moving clouds, haze, mist etc)	Bright Sun light
K.	Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits on other sites with floodlights or night lighting)	None given.

L.	To whom reported (Police, military, press etc)	MOD Air Force Operations
M.	Name & Address of Informant	Section 40 Highbury London N5.
N.	Background of Informant that may be volunteered	Employed by Section 40 Section 40 as a Lab Tech. in Physic Dept.
O.	Other Witnesses	Section 40 Hornsey, London
P.	Date, Time of Receipt	29 Sep 85 1830A hrs.
Q.	Any Unusual Meteorological Conditions	No

UNIDENTIFIED FLYING OBJECT SIGHTING REPORT

Reference:

A. Manual of Air Traffic Services Part 6 Chap 4

1. The following report of unidentified flying object sightings is forwarded in accordance with the reference:

A. 11 September 1985

- (a) First Object 1334 A
- (b) Second Object 1340/1341 A

B. Objects tracked on radar; no visual sighting made

C. Aircraft in position 150/Lands End VOR(LND)/15 at 1500'

D. Radar tracking

E. (a) First Object 310/LND/45
(b) Second Object 300/LND/45

F. Not available

G. 60 nm approx

H. Both objects tracked 130 for approximately 40 miles with a velocity estimated at 10 nm in 12 secs

J. VMC

K. Nil

L. Air Traffic Control, RNAS Culdrose

M. Sea King AEW aircraft callsign Any Face 63

N. Radar performance characteristics indicate that these objects were not spurious contacts despite the conditions of anomalous propagation existing at the time. No unusual tracks were observed on the ATC Radar at RNAS Culdrose.

1. O. Nil

P. 11 September 1985 1400A

2. This report has been telephoned to AIS (Military), LATCC in accordance with the reference.

UNIDENTIFIED FLYING OBJECT - SIGHTING N. BRANSOLME, 0190 080985.

1. 8TH SEPTEMBER, 1985 - 0100HRS UNTIL ABOUT 0115HRS SAME DAY.

2. INITIALLY A SINGLE POWERFUL BEAM OF LIGHT WAS SEEN SPINNING AROUND IN THE SKY. THIS BEAM WAS DESCRIBED AS SIMILAR TO A LASER OR

LIGHTHOUSE BEAM IN ITS MOVEMENT. EXACT HEIGHT OR DISTANCE WAS NOT DETERMINED BUT IN BETWEEN VIEWERS AND OBJECT WAS A LINE OF TREES OF ABOUT 50 FEET IN HEIGHT. THIS WENT ON FOR ABOUT 10/15 MINUTES AND THEN DISAPPEARED.

THEN A ROUND OBJECT ABOUT CIRCUMFERENCE OF A HOUSE ROSE UP FROM BELOW TREES TO ABOVE THEM. THIS OBJECT WAS DESCRIBED AS HAVING A RING OF RED LIGHTS AROUND ITS BASE, EACH ABOUT ONE AND A HALF INCHES IN DIAMETER. ABOVE THESE LIGHTS WERE THREE DIFFERENT LEVELS OF WHITE POWERFUL LIGHTS. DURING SIGHTING A HUMMING NOISE WAS HEARD WHICH BECAME LOUDER AS OBJECT ROSE FROM BEHIND TREES. THERE WAS NO SMELL DETECTED BY WITNESSES.

3. VIEWED FROM JUNCTION OF CUMBERIAN WAY/FURNESS CLOSE, N. BRANSOLME ESTATE, KINGSTON UPON HULL. THEY WERE STANDING OUTSIDE.

4. VIEWED BY NAKED EYE.

5. EAST(GENERAL HEADING) ACROSS FIELDS FROM ABOVE LOCATION.

6. NO ANGLE OF SIGHT - OBJECT VIEWED ABOVE AND BEHIND THE ABOVE MENTIONED LINE OF TREES, 50 FEET IN HEIGHT(APPROX). NO EXACT HEIGHT AVAILABLE.

7. LINE OF TREES MENTIONED ARE BETWEEN 150 AND 200 YARDS AWAY.

8. ORIGINAL SINGLE LIGHT SIGHTED ABOVE TREES AND ON ITS DISAPPEARANCE THE MAIN BODY ASCENDED ABOVE TREE LINE AND THEN DESCENDED AGAIN. THE MAIN BODIES LIGHTS THEN WENT OUT AND HUMMING CONTINUED FOR ABOUT 2/3 MINUTES BEFORE ALSO CEASING.

9. NIGHTIME, CLEAR VISIBILITY AFART FROM LOW DOWN SLIGHT MIST AND A FINE DRIZZLE.

10. NONE
11. POLICE.

INFORMATION REQUIRED FOR REPORTS TO ROYAL AIR FORCE UNITS

File
12/2

1. Date, Time and duration of sighting (Local):

WEDNESDAY 14TH AUGUST, 1985

From 21.25 hrs. to 21.35 hrs. Then shortly after.
A second sighting of 3-4 mins. south of Dartford.

Position of observer:

Long Reach, Dartford Marshes, Dartford, Kent.
(on River Thames shore).

3. Direction: (A landmark may be more useful than a badly estimated bearing)

NORTH TO SOUTH - OBSERVED LOOKING AT POLE STAR
WHEN HE FIRST SAW IT
USING BINOCULARS - 7X30

4. Angle of Sight: (Estimated heights and distances are unreliable)

HIGH IN SKY - AS IF A SATELLITE IN ORBIT
THEN COMING LOWER.

5. Movements: (Changes in (3) and (4) over the period, rather than an estimated course and speed)

NORTH TO SOUTH - WHEN SOUTH OF DARTFORD
OBJECT STARTED ZIG ZAGGING OR OVER THE
SKY. AND RIVER NORTH.

6. Description Small - AS IF A SATELLITE. WHEN

APPARENTLY COMING LOWER. RED, BLUE, GREEN & YELLOW
LIGHTS COULD BE SEEN.
OBJECT DESCRIBED AS MORNING "EXTREMELY FAST."

REPORT OF AN UNIDENTIFIED FLYING OBJECT

- A. Date, Time and Duration of Sighting. 13 August 1985 2200hrs A
- B. Description of Object. Approx 12 small, bright, fast objects. Green glow duration 10 - 15 seconds each.
- C. Exact Position Observer. As per L, outdoors.
- D. How Observed. Naked eye.
- E. Direction in which Object was first seen. From the direction of Sheffield moving towards Finningley.
- F. Angle of sight. Estimated very high.
- G. Distance. Not known.
- H. Movements. Moving very fast, erratic, but controlled movements.
- J. Meteorological conditions during observation. Clear night.
- K. Nearby objects. Built up residential area.
- L. To whom reported. SDO RAF Finningley - Flt Lt **Section 40** Via Finningley switchboard.
- M. Name and Address of informant. **Section 40**
[REDACTED] Tel: **Section 40**
Doncaster
- N. Any background on the informant that may be volunteered.
Stable. Wondered if he had seen a meteorite shower.
- O. Other witnesses. Informants wife.
- P. Date and time of receipt of report. 13 Aug 1985 2255hrs A
- Q. Is a reply requested. Yes

ANNEX A TO
SOP 502REPORT OF AN UNIDENTIFIED FLYING OBJECT

A.	Date, Time & Duration of Sighting	131835A Aug 85 1 minute.
B.	Description of Object (No of objects, size, shape, colour, brightness)	Grey metal. Size of suitcase. Heart shaped with 3 black rings.
C.	Exact Position of Observer Location, indoor/outdoor, stationary/moving	Bedroom of house.
D.	How Observed (naked eye, binoculars, other optical device, still or movie)	Naked Eye.
E.	Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	From House. South West.
F.	Angle of Sight (Estimated heights are unreliable)	Unclear.
G.	Distance (By reference to a known landmark)	Less than $\frac{1}{4}$ mile.
H.	Movements (Changes in E, F & G may be of more use than estimates of course and speed)	Gliding 20-30 mph.
J.	Met Conditions during Observations (Moving clouds, haze, mist etc)	Clear.
K.	Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Nil.

UNUSUAL OCCURRANCE - MIDDLE WALLOP AREA

Reference:

A. Telecon Col [redacted] Section 40 051730A Aug 85.

1. Enclosed are a brief report and polaroid photographs of the scene together with an extract from the HAMPSHIRE CHRONICLE reporting similar occurrences.
2. Four films, 2 x 100mm Colour, 2 x 35mm Black and White, of ground and aerial photographs of the scene have been given to MOD CS(Rep S) Photography [redacted] with instructions to forward prints and negatives to you.
3. The films are the private property of [redacted] Section 40 and I would therefore be grateful if the negatives could be returned to me as soon as possible so that I can give them back to him. (With some prints if possible for services rendered).
4. Purely incidentally, [redacted] Section 40 was an official observer and film camera man at the BIKINI ATOL Atomic Explosion in 1952.

[redacted]
Section 40

SO2 Avn Stds HQ DAAC

UNUSUAL OCCURRENCE (UFO?)

1. On Monday 5 Aug 1985 **Section 40**

CLATFORD

who farms near the AAC Centre, Middle Wallop telephoned to report some extraordinary depressions in a field of near ripe wheat, and asked, "What on earth we (THE AAC) were up to now?" I took the Aircraft Accident Investigation Officer (AIFSO) Maj [REDACTED] REME with me and went to inspect the scene.

Section 40

2. The site, Grid Reference 346392 was a virgin, un-weather damaged, near ripe field of wheat. We found the following:

a. An exactly circular hole in the wheat in which the wheat had been laid flat in a clockwise twist 40 ft in diameter. (As if a plank had been put with one end at the centre and then swept round in a complete circle). There were one or two stalks of wheat standing which had sprung upright again. The wheat on the edge of the circle was completely upright and undamaged.

b. Four separate, smaller circles approx twelve feet in diameter, exactly similar to the larger one. These were set in a precise square, NORTH/SOUTH and EAST/WEST, with their centres 43 paces from the centre of the large circle.

c. There were absolutely no tracks in the wheat. To have set the holes in such a precise pattern manually would have required a tape measure or string, and the users would have been bound to leave tracks in the wheat.

d. All but one of the holes touched onto the main furrows in the wheat, and could therefore be approached from the edge of the field without leaving tracks. However there was no way of moving from one to the other without leaving tracks in the wheat, except by going some 200 yards to the edge of the field, and then back down another main furrow. One of the smaller holes was completely isolated.

Section 40

Section 40

Section 40

3. Maj [REDACTED] took some polaroid photographs which are included with this report. Mr [REDACTED] a semi professional photographer, took some 120mm colour photographs. I subsequently took Mr [REDACTED] and we photographed the scene from the air. By that time some half a dozen sight-seers were on the scene and a track, which had not been there when we were on the ground, had been made out to the isolated hole.

4. Present at the initial viewing were:

Lt Col **Section 40** AFC AAC

Maj **Section 40** REME

Section 40

And two others

None of us could offer any reasonable explanation.

Chilbolton Church Fete

expanding the usual fancy competition at Chilbolton Church Fete, a parade with the theme "Children of the World" made its way from the Green, up Rise and through the village, led by the Test Valley Brass Band. Children ranging from pre-school to teenagers dressed in costumes from various parts of the world, made for a mounted contingent in the local riding school.

Outriders on BMX bikes, children rode through the age on a haywain, decorated tractor and trailer, kindly made by Mr. Edward Paintec. The entries were judged by Rev. C. Hubbard, Mr. David Cridale and Mrs. Angela Cridale, and prizewinners were Charles Coats, Katherine Lewin, Thomas Batchelor and Siân Jones.

Still on the theme of "Children of the World," there was a competition to make a dwelling from another country, and prizewinners were Rachel Prevest, Thomas Batchelor and Katherine Lewin. The pre-school children were invited to paint a picture on the same theme and the winner in this section was Andrew Lewin.

The village street was gaily decorated with bunting by village organisations and groups, and there was an excellent attendance, and all the stalls were well supported.

This year's very successful fete was held in the recently restored threshing barn and the lovely grounds of Bannister Farm, with the kind permission of Mr. and Mrs. R. Youtell, and £1800 was raised.

brought to an abrupt halt by the ball bush, but the day was saved when a new ball was hurriedly produced from a nearby house. The Plough were the victors with a score of 2-1, and this obviously did not prove popular with the Dolly Birds who proceeded to pour water over the referee. Vera Woodruff captained the Plough team of Pat Casey, Sharon Kempster, Sally Nicholson, Melanie Gerrard, Debbie Welch, Sue Ruff and Fran Piper. Dolly Birds were Sue Rees (captain), Kate Denchy, Georgina Wilson, Wendy Denchy, Julie Harris, Ivy Wright, Sue Smith and Sally Rees.

The Children's Fancy Dress Competition was judged by Miss Dorothy Hunt from Alresford, and her task was made harder by such a variety of excellent costumes. In the Under Five Class the most original was Lara Colville as "Night and Day," the most attractive Sarah Kennedy as a Clown, and the best made Liam Brozman as a Cowboy. In the six to nine years age group the most attractive was Katie Kennedy as a "Sugar Plum Fairy," and the most original Rose Smith as a Cat.

Strawberry teas were served in the Village Hall, and the final item on the programme was a tug-of-war refereed by Dave Bulpitt. Only four teams entered this year, from the Plough at Bishop's Sutton, the H.F. at Cheriton, and two from the Jolly Farmer at Beaumarsh. The victors were the Jolly Farmer A, with the H.F. second, the Plough third and the Jolly Farmer B fourth.

At the end of a very successful afternoon £330 had been raised by the Village Hall Committee, who had organised the Fete.

Bishop's Waltham, who works for Solent Excavations, was married to Miss Carol Jay Millier, daughter of Mr. and Mrs. A. P. Millier, of "Fair View," Winchester-road, Bishop's Waltham, on June 29th, at St. Peter's Church, Bishop's Waltham. The Rev. John Willard conducted the service.

The bride, who is a receptionist with T.N.T. Roadfreight, wore a cream three-quarter length gown, a pillbox hat and carried a bouquet of mauve and pink silk flowers when she was given in marriage by her father. She was attended by her sister (Patricia Millier), her niece (Virginia Whiting), both attired in lilac dresses with cream accessories, and her nephew, Gareth Millier.

The best man was Mr. David Grove; 146 guests attended the reception at the Jubilee Hall and when the couple left for an undisclosed destination, the bride wore a red suit with white accessories.

Founder's Day at Hordle House School

The parents of nearly all the local day children from Hordle House Prep. School, at Milford-on-Sea, together with many boarders' parents who had made long journeys, went to the school on June 29th, for Founder's Day, and the main event of the morning was a performance by some of the senior children of scenes from "The Merchant of Venice." At a previous performance, one of the infants from the Pre-Prep. School had been terrified by Shylock's realistic effort to get his pound of flesh from poor Antonio!

Country dancing by some of the junior children was supported by rhythmic clapping from the enthusiastic parents, and the last set piece was an exhibition of aerobics by a group of barefoot girls.

The school was open for parents to walk round, and the working models and computer displays in the Science Laboratory attracted great interest. Most of these had been made by senior children, and the exhibition in the Art Department was much admired.

Picnic lunches were eaten in the grounds, and the parents' cricket team, captained by Mr. Peter Tilby, home on leave from Nigeria, was defeated by the school 1st XI by 16 runs. The balance of parental power was restored by the ladies' shooting team scoring 357 against the school's 296, and justice was maintained by the tennis match ending in a draw.

It's happened again! The Mystery Circles have returned. Nobody knows why or whence they come, but every year since the last war, the perfectly regular circles have appeared somewhere. For the last five or six years, they have materialised between Alresford and Winchester, first at Cheesefoot Head, this year at Matterley Farm, just off the A31. Similar phenomena have been reported in Australia, Canada, Sweden and in other parts of the British Isles including Westbury and Warminster. The largest in this group is about 40 feet across, the rest are 11 or 12 feet. In each the corn is swirled clockwise round the rings, whilst outside it is untouched. Normally — if anything about them can be called normal — they are in this configuration, the largest in the centre of a square, the smaller at each corner, although in 1982 at Cheesefoot, there were only three in a straight line. Theories abound about the cause, from vandalism to UFOs by way of micro-tornadoes. The truth is, we just don't know, but if they run true to form they will be back next year . . .

West Drayton

Dear Sir. I wish to inform you
that at about 10 PM, on Friday,
August 2 I saw from my window
what I am convinced was a U.F.O.

I glanced through my
window & saw what appeared to
be a most brilliant & beautiful
sunset to my right. But of course
it was much too late to be a

Sunset, & was too high in the sky. As I watched a brilliant ball of light detached itself from the "Sunset" & moved steadily away to the left, on a dead straight line. I thought "that's a very brilliant moon", & then I realised it was travelling the wrong way for the moon - it was going from right to left. It was a most brilliant light, not flashing or twinkling but just moving steadily. As I watched, wondering what it could be, it curved downwards towards the sea, & then to my amazement it hovered above the sea for quite some seconds, & then, having remained

still, while a lighthouse on the
Somerset coast flashed regularly, so
that I now saw two lights — one
flashing & one still, it suddenly
disappeared.

It was certainly not
a shooting star — It travelled in too
steady a straight line, & it was not
a crashing aircraft — I saw from
my window some months ago a
Trainer Jet crash into the sea
off the South coast, outside Swanage,
& that had flashing lights in
quite a different manner. And
anything falling from the sky
would not have remained

still, over the sea, in the way
this did.

I might add I am
76 years old, & not given to
wild flights of imagination!

I have enclosed a
rough diagram of what I saw.
Yours faithfully,

Section 40

"Sunset" area.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time and Duration of Sighting.

Midnight 23 July until 0230 on 24 H.

B. Description of Object.

Red & blue lights almost stationary

C. Exact Position Observer.

address

D. How Observed.

Naked eye & binoculars

E. Direction in which Object was first seen.

N. 10° E

F. Angle of sight.

40°

G. Distance.

approx 5 nts.

H. Movements.

Very very slow, only long observation

determined any movement

J. Meteorological conditions during observation.

Clear - No cloud

K. Nearby objects.

Used street lights & chimneys to assess position

L. To whom reported.

to police

M. Name and Address of informant Section 40

Section 40

SHUTTLEWOOD, CHESTERFIELD.

N. Any background on the informant that may be volunteered.

Section 40

O. Other witnesses.

Police constable. No. [REDACTED] (Belper Police).

P. Date and time of receipt of report.

26 July 1950

Q. Is a reply requested.

Yes please

→ Mrs Lee is an investigator for the Yorkshire UFO Society and this is her first experience of a UFO

MINUTE SHEET

Subject

Station: Sowerby Bridge Date: 8 July 1985

POSSIBLE UFO SIGHTING

Chief Superintendent **Section 40**

I have to report that at 21.37 hours Sunday 7 July 1985 I was at Sowerby Bridge Police Station when I received a report by telephone from a **Section 40** born 22.12.15 of **Section 40** **Section 40** Rishworth, that at between 2.50 am and 3.10 am on Sunday 7 July 1985 he saw in an easterly direction from his house, at an altitude of 5° above the horizon a strong white light which he said was flickering and was travelling in a southerly direction towards Manchester.

I suggested to him that this may have been a sighting of an aircraft but he insisted that this was not the case. I therefore respectfully suggest that this report be forwarded to the Force HQ for the attention of Chief Superintendent, Admin and that he may feel it worthy of being passed to the Ministry of Defence Department S4F (Air), Main Building, Whitehall, London SW1A 2HB for their information.

Telex: Section 40

16th July 1985

Report of Unidentified Flying Object

Please find enclosed UFO report from Section 40

This report was initially relayed to ATC Dunsfold by Section 40 fiancée who is a Section 40 employee at Dunsfold. It was not passed by telephone to AIS Military as I considered the time delay from observation to receipt of the report at Dunsfold would not constitute an 'immediate' report.

The Dunsfold radar controller on duty at the time of the reported observation does not recall seeing anything unusual on radar in the vicinity of Horsham at the appropriate time.

Yours faithfully,
Section 40

Manager ATC Services

enc.

MINISTRY OF DEFENCE

18 JUL 1985

AIR FORCE OPERATIONS

Section 40

- A) 15.7.85, 4.06 pm - 4.10 pm.
- B) Spherical, approx 30-40 feet diameter, with appearance of highly polished silver metal, with a protruding lip $\frac{1}{2}$ of the way from the bottom, this being mid grey in colour. The lower surface of this lip seemed to have a flat surface on the horizontal axis of the sphere, the upper surface of the lip seemed concave and faired in. The object emitted a throbbing double-beat sound somewhat akin to a ship's propeller. The object became silent before it was out of the audio range one would expect, as if the sound source had stopped.
- C) **Section 40**
Horsham,
W. Sussex.
- The object was seen from both indoors and outdoors, in a direction from the house of approx 330° through 260° . I was stationary on foot.
- D) The sighting was entirely by naked eye.
- E) The direction in which the object was first seen was approx 330° from the house. No landmarks available.
- F) Very approx 30° .
- G) Approx $\frac{1}{2}$ mile, no landmarks of use in this respect.
- H) The object moved in an arc from 330° to 260° (from observers position) increasing distance from the observer through this arc, and coming back towards the observers position, towards the end of the arc, visual contact was lost at this point, the object seemed to maintain a constant altitude.
- J) There was a white overcast sky behind the object at all times but visibility was very good and at no time was there any cloud or mist between object and observer.
- K) The only nearby site of the types specified is the airport at Gatwick.
- L) Air Traffic Control, Dunsfold Aerodrome, Surrey.

M) Section 40

- N) Tee total, 19 years, excellent eyesight, familiar with aircraft, no previous sightings, not on any drugs.
- O) No known other witnesses.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).

131130 ~~Z~~ JUNE 85

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Two large "elongated" lights following in line

C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).

* See address below. Seen from Bedroom window

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye initially then through binoculars

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).

South

F. Angle of sight. (Estimated heights are unreliable).

45-50°

G. Distance. (By reference to a known landmark wherever possible).

Unable to assess but appeared to be relatively close.

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

Steady East to West

J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

Dry with some high cloud

K. Near-by objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

None - rural area

FLYING COMPLAINTS & CUSTOMS LIAISON FLIGHT

Royal Air Force
Rudloe Manor
Hawthorn
Wiltshire
SN13 0PQ

Telephone Hawthorn **Section 40** [REDACTED]

28th May, 1985

RAF Rudloe Manor,
Att'n. Flying Complaints Flight,
Hawthorne,
Wiltshire SN13 OPQ

Dear Sirs,

I am writing to confirm the information I gave by telephone to the Duty Officer, RAF Operations, at approximately 0110 on Saturday 25 May 1985.

I reported that during a visit to friends at Cowley Hill, a little north of Borehamwood, Hertfordshire, I had seen - at some time between 2100 and 2130 hours on Friday 24 May 1985 - a triangular array of lights in the direction of Elstree. They appeared to form an equilateral triangle of white to yellow lights, self-illuminated, with the base parallel to the horizon, at an elevation of 30 to 40 degrees. I reported the azimuth as being about South East, but telephoned the Operations Room again at about 1730 on Saturday 25 May 1985 to say that this was clearly in error: the azimuth was certainly South West rather than South East.

I heard no sound and detected no movement in this array of lights. It appeared to be stationary in the sky below cloud cover which I estimated at about 10/10ths stratus. The sighting lasted for about 2 minutes, suggesting to me that I was not observing an aircraft in (for example) the Heath Row circuit.

I can make no estimate of distance. But the angular dimensions of the object were (approximately):-

- a. About one sixth of the diameter of the moon for each of the three lights (viz. five or six minutes of arc).
- b. About five or six diameters between each of the three lights, viz. each side of the equilateral triangle must have been of the order of 40 or more minutes of arc.

As a former member of the British Astronomical Association (which I only recently relinquished on moving to London, where telescopic observation is impossible) and as an ex-RAF navigator, I rather doubt that I am easily deceived by aerial phenomena. My distinct impression is that I perceived an event for which no ready explanation is possible in wholly conventional terms. Astronomical phenomena are, I think, ruled out by the extensive cloud cover as well as by the very regular, triangular formation of the three lights seen. And aircraft lights seem a very unlikely explanation.

In view of the impossibility of estimating a precise distance for the sighting, I was not able to answer the questions put to me by the Operations Room and again by the Duty Desk at the MOD Main Building, Whitehall, about whether the sighting was near to high-power voltage lines, bodies of still water or a local town. There is a reservoir near Elstree; high-voltage lines are endemic in Hertfordshire; and the county abounds in towns. But I can give you only the angular dimensions of the object(s) seen; and the precise distance must remain

a matter of speculation.

I would like to add that I was greatly heartened, as an ex-MOD official, to discover that serious attention is being paid to events in British airspace, not only by the Duty Desk in Whitehall but also by yourselves. I am most grateful for the courtesy with which my report was received. I am, of course, well aware that the Flying Complaints Flight has the thankless task of responding to members of the public who feel, rightly or wrongly (and perhaps often wrongly !) that uncovenanted military flying has taken place in their local areas. I would like to stress that I am most certainly not making a complaint. I merely hope that my own observation has contributed to your surveillance.

I would, of course, be most interested to know (within whatever limits of security you must observe) what interpretation is placed upon my report and what expert evaluation of it has been made of it by other authorities beyond your own unit.

Yours sincerely,

A handwritten signature in black ink, appearing to read "R.N. Noyes".

(R.N. Noyes)

PS: A quick call by you to Civilian Management at the MOD would confirm that I served in the MOD from 1949 to 1977, retiring in the grade of Under Secretary, and that I also served as aircrew in the RAF from 1941 to 1946.

SOP 502

Mr
12/2

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A.	Date, Time & Duration of Sighting	24 May 85, Between 2000 - 2030Z for about 2 to 3 minutes
B.	Description of Object (No of objects, size, shape, colour, brightness)	Slightly odd. Saw a triangle of light, self illuminated. Equilateral, colour yellow/silver
C.	Exact Position of Observer Location, indoor/outdoor, stationary/moving	Cowley Hill, SE of Shenley between St Albans and Borehamwood. In garden of friends house.
D.	How Observed (naked eye, binoculars, other optical device, still or movie)	Naked eye.
E.	Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	SE towards Elstree Village
F.	Angle of Sight (Estimated heights are unreliable)	35 - 40° Elevation
G.	Distance (By reference to a known landmark)	No real idea.
H.	Movements (Changes in E, F & G may be of more use than estimates of course and speed)	No movement which caught his attention, different to aircraft.
J.	Met Conditions during Observations (Moving clouds, haze, mist etc)	Fairly clear below St Cu at about 3-4000' Sighting below cloud.
K.	Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Large reservoirs nearby

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time & Duration of Sighting	17 May - 1410-1412
B. Description of Object (No of objects, size, shape, colour, brightness)	Flashed Silver front bright. Of Head thin edge shiny rest dark.
C. Exact Position of Observer Location, indoor/outdoor, stationary/moving	On the Pulka. Pulka Rd. Were all the looking at airship or kind of notice who approaching. (Hafey)
D. How Observed (naked eye, binoculars, other optical device, still or movie)	Naked eye
E. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Travelly SW - opposite direction to the airship
F. Angle of Sight (Estimated heights are unreliable)	Basically overhead
G. Distance (By reference to a known landmark)	High flying plane -
H. Movements (Changes in E, F & G may be of more use than estimates of course and speed)	No
J. Met Conditions during Observations (Moving clouds, haze, mist etc)	Good, few clouds around.
K. Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	No

Barnstable

Devon.

Dear Sir,

I would like to relate to you an experience that happened some three months ago, which I think you may be interested in.

On May 16th, 1985, as I was in my back garden, planting some tulips, when for some reason, I was compelled to look into the sky. Approaching from the direction of near by Ilfracombe, I saw a large cylindrical shaped object, with a light at each end, traveling east.

The object stopped some distance from my cottage, turned on its axis and vanished.

I will admit that I have had an interest in UFO reports, hence I wrote to you, but this experience really shook me up.

Now I have related my experience to you, I hope that that will

be the end of it.

Yours sincerely

ANNEX A TO
SOP 502

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time & Duration of Sighting	162136Z MAY 85, 45 MINS PRIOR TO REPORTING
B. Description of Object (No of objects, size, shape, colour, brightness)	1 OBJECT, SMALL AND SILVERY WITH RED TOP AND BRIGHT YELLOW BOTTOM
C. Exact Position of Observer Location, indoor/outdoor, stationary/moving	OUTDOOR, STATIONARY IN GARDEN
D. How Observed (naked eye, binoculars, other optical device, still or movie)	NAKED EYE
E. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	ALMOST DIRECTLY OVER RAF HENLOW TOWARDS NW
F. Angle of Sight (Estimated heights are unreliable)	10° ABOVE GROUND
G. Distance (By reference to a known landmark)	MORE THAN 3 MILES AWAY AS IT APPEARED TO BE THE OTHER SIDE OF HENLOW
H. Movements (Changes in E, F & G may be of more use than estimates of course and speed)	MOVED QUICKLY TO ONE SIDE RETURNING TO ORIGINAL POSITION
J. Met Conditions during Observations (Moving clouds, haze, mist etc)	CLEAR SKY
K. Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	LAKES

L. To whom reported (Police, military, press etc)	GUARDROOM, RAF HENLOW
M. Name & Address of Informant	Section 40 [REDACTED] HITCHIN, HERTS
N. Background of Informant that may be volunteered	TEL NO [REDACTED] Section 40 [REDACTED]
O. Other Witnesses	WIFE
P. Date, Time of Receipt	162136Z MAY 85
Q. Any Unusual Meteorological Conditions	NIL
R. Remarks	OBJECT WAS STILL BEING OBSERVED ON COMPLETION OF THIS REPORT.

MAN/135/SY

Date

12 April 1985

REPORT OF SIGHTING OF UFO - **Section 40** - OCT 1982

Reference:

A. MAN/135/Sy dated 23 Jan 1985

1. Reference A contained an account of a sighting of an alleged UFO in Oct 82 by a **Section 40** along with some film negatives.

2. Since **Section 40** visit to this Unit and the handing over to me of the negatives I have received numerous telephone calls from **Section 40** asking me what was the outcome of sending the reported sighting to you.

3. I have pointed out to the **Section 40** that these matters take time and further that they should not necessarily expect a reply.

4. Despite these assurances the **Section 40** have persisted in contacting me and have recently requested the return of the film negatives.

5. I would be grateful if someone could please reply to them or if this is not possible, the negatives could be returned to this Unit for return to the **Section 40**

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).

1985 18 March 85

5 minutes duration

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Object shaped like a 5p piece with 2 strong beams of light from front and 2 weaker ones from the rear. Red, yellow and green coloured lights in clusters on the underside in 3 clusters and 3 coloured lights on either side. The whole object described as being in 3 sections and "big".
C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).

1/2 mile out of Blackmore on road to London in car heading north before stopping at roadside.

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye.

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).

North

F. Angle of sight. (Estimated heights are unreliable).

45°

G. Distance. (By reference to a known landmark wherever possible).

"very close"

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

Initially stationary but then moved slowly southwards over the heads of observers and then disappeared at speed.

J. Meteorological conditions during operations. (Moving clouds, haze, mist etc).

clear

K. Near-by objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

Flat rural area near Stansted.

L. To whom reported. (Police, military organisations, the press etc).

- ① Ongar Police (who took a statement)
- ② Sec (A) 2.

M. Name and address of informant.

Section 40

N. Any background on the informant that may be volunteered.

Night Club manager

O. Other witnesses.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A.	Date, Time & Duration of Sighting	17 Mar 85 1915 hrs 10 minute intervals.
B.	Description of Object (No of objects, size, shape, colour, brightness)	Banana shape, like Welsh light. Bright, mixture of colours.
C.	Exact Position of Observer Location, indoor/outdoor, stationary/moving	3rd Floor of Block of Flats. Indoors. Sitting down and Standing up.
D.	How Observed (naked eye, binoculars, other optical device, still or movie)	Binoculars
E.	Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Hovering above Wembley Stadium, and in the area around Wembley.
F.	Angle of Sight (Estimated heights are unreliable)	Through clouds at about 2000 to 3000 ft.
G.	Distance (By reference to a known landmark)	About 2 miles from Neasden.
H.	Movements (Changes in E, F & G may be of more use than estimates of course and speed)	Hovering away and back again in area at E.
J.	Met Conditions during Observations (Moving clouds, haze, mist etc)	Some moving clouds, but mostly clear.
K.	Nearby Objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Wembley Stadium, but floodlights were not on.

L.	To whom reported (Police, military, press etc)	The Sun News paper
M.	Name & Address of Informant	Section 40 [REDACTED] Neasden, London NW 2
N.	Background of Informant that may be volunteered	None known
O.	Other Witnesses	Section 40 [REDACTED] Neasden London NW 2
P.	Date, Time of Receipt	17 Mar 85 1940 hrs
Q.	Any Unusual Meteorological Conditions	None known
R.	<u>Remarks</u>	This object was first seen in the same area on 15 Mar 85, at around 2000 hrs. by Section 40 [REDACTED] and he reported the sighting to the press(Sun News paper).

(CHAIRMAN)

Section 40

Aircraft Movements Office
Civil Aviation Authority
West Drayton
London.

March 14th 1985.

Dear Sir/Madam,

We have recently received a report from a headmaster and his family, of an unidentified object in the Burnley area. This object was observed originally as a very bright light over Brierfield, at 21.15hrs, Jan 23rd, 1985. As they watched it moved slowly towards them at an estimated height of 500ft. It continued slowly in a SSE direction before disappearing out of sight. Its direction of travel then was NNW to SSE. Total observation time fifteen minutes.

None of the witnesses heard any sound, even when it passed over the house, and its shape and display of lights was inconsistant with a conventional aircraft. Nevertheless, we would be grateful if you could check aircraft movements at that time and date, and inform us of your findings. Could it have been a balloon of some sort?

We would be pleased to identify this unidentified, if there is a logical explanation. I look forward to your reply in anticipation.

Yours

12 March 1985.

Secretariat (Air Staff 2),
Room 8245,
MoD Main Building,
Whitehall,
LONDON, SW1A 2HB.

Dear Sir,

I enclose a statement from **Section 40** of Pencader, Dyfed regarding a U.F.O. sighting which she made on 16th February 1985 and also on the following night.

Section 40

However I am not asking for any classified information to be divulged to me, but I would just like to reassure **Section 40** that they did in fact see something that was not a natural phenomenon (aurora, heavenly body etc.) but that whatever it was, it did not originate from a foreign country or indeed from outer space!

I would only add that the **Section 40** are old friends of many years standing, and are most reliable and level-headed witnesses.

I would be most grateful for any reassurances along the above lines that can be given to me.

Yours faithfully,

Section 40

On the night of the 16th Feb. 1985 I crossed our farmyard and happened to look up at the sky as it was so clear and the stars were very bright, the first time for several weeks. Although I am not familiar with the positions and names of stars, one very bright light to the west caught my attention. It appeared about six times larger than the brightest constellation that night and seemed to hover as if dangling from a string. About every five minutes the intensity of light increased and a red glow at the base seemed to increase. The green rays on either side seemed more definite. After two minutes the light would decrease and the colours fade.

I called my husband, who was quite sceptical until he watched it for a few minutes. He said it could only be a hot-air balloon and the periodic red glow was the gas. I pointed out that there was quite a lot of wind and I did not see how a hot-air balloon could remain fairly stationary for such a long period. We debated the various possibilities and came to the conclusion that we were witnessing one of the mysterious UFO's we had previously ridiculed.

I first spotted it at 8.10pm and continued to observe it until 8.45pm. At this time it seemed to move further away, due west and then suddenly accelerated at a high speed, gaining height until it became faint and finally disappeared. This sudden move took place over a period of about $1\frac{1}{2}$ minutes.

I then phoned the Air base at Aberporth and spoke to the constable on duty. He phoned me back later to say there had been no other reports of such a sighting and there was no possibility of it being a hot-air balloon or a helicopter. The weather conditions were clear so it could not be confused with inclement weather conditions. The lack of other sightings could be put down to the fact that it was a bitterly cold night with sub-zero temperatures and few people were venturing out. We only happened to see it as we had to cross the yard, to the shed where we were lambing at frequent intervals.

The following night I looked for it again and observed it at 7pm. It was in the west and the light did not vary in intensity as on the previous night. The red glow at the base and green on either side were still visible. I did not call neighbours as I expected it to disappear before they could get here and they might have doubted my credibility had they arrived to find it gone. It moved very slowly across the sky towards the north, sinking lower on the horizon. It eventually became redder and disappeared over the horizon at 9.50pm. I rang the nearest neighbours at 9.30pm but they could not see it as it had sunk too low on the horizon to be visible from their place. I reported it to Aberporth but once more they said they had not observed it. Our farm lies at an altitude of 650 ft in rolling hills where the visibility varies considerably between different farms. The colour was more intense than that from a plane and a larger area of surrounding sky was lit up by it than from the lights of a plane.

SUBJECT: SIGHTING OF UNIDENTIFIED FLYING OBJECT.

Sir,

At 6.30pm on Saturday 16th February 1985 I spoke to a [REDACTED] of [REDACTED] Bucknall, Stoke-on-Trent who reported sighting an unidentified flying object. I asked her questions about this occurrence and repeat in paragraphs A to Q below as set out for this procedure.

- A. At 6.30pm FRIDAY 15th/February 1985 for a duration of one hour.
- B. The object appeared to be of a mushroom shape, very bright and a glowing orange colour, no approximate size can be given although she stated it would be the same size as an aeroplane, there was no sound or smell coming from the object, and that was the only object visible.
- C. At the time of observing the object she was outside her house and standing in the front drive way.
- D. At first she saw it with the naked eye and then through a pair of binoculars. No photographs etc were taken.

E. The object appeared to be directly over her next door neighbour's house Buckhall.

Section 40

F. The object was directly overhead and quite high, she further states that it was about the same height as aeroplanes fly at.

G. Unable to tell no land marks available.

H. The object remained stationary for about one hour then moved quite quickly towards the Stoke area which took about 5 or 6 minutes then when in the vicinity of Stoke disappeared.

I. At the time the sky was clear, no clouds fog or electricity faults were apparent.

K. The only tall building near is Buckle Hospital and she states there were no bright lights.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local times to be quoted).

052100 ± MARCH 85 - 25 minutes

B. Description of object. (Number of objects, size, shape, colours, brightness, sound, smell, etc).

Brilliant Star when viewed with naked eye. When seen through binoculars appeared to be circular surrounded by an aura, with a smaller pulsating light beneath.

C. Exact position observer. (Geographical location. Indoors or outdoors. Stationary or moving).

Lea Manor, Albrighton (close to RAF Cosford)

D. How observed. (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye and then through binoculars

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing).

Towards the West.

F. Angle of sight. (Estimated heights are unreliable).

Not clear, but appeared to be very high and moved away towards the horizon

G. Distance. (By reference to a known landmark wherever possible).

Indeterminable.

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

Moved in a S. Easterly direction

J. Meteorological conditions during operations. (Moving clouds, haze, mist etc.).

Clear bright night

K. Near-by objects. (Telephone lines; high voltage lines; reservoir, lake or dam, swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

None. Rural area mainly fields.

SIGHTING OF POSSIBLE
UFO - HUDDERSFIELD.

Divisional Officer, Kirklees (Huddersfield)

At 7.15 am on Friday 15 February 1985 I was on duty in the Control Room at Holmfirth Police Station when I received a telephone call from **Section 40** [REDACTED] Huddersfield (tel: [REDACTED] **Section 40**)

Section 40 informed me that at precisely 4.02 am the same morning he had looked out of his house window and seen a strange object, which he could only describe as a bright orange ball in the sky.

The location given is above Castle Hill, Almondbury, Huddersfield. **Section 40** stated that as he watched this 'object' hovering in the sky above Castle Hill, it descended, rose up again, descended onto moors, then rose up again, moved in the direction of the Emley Moor mast, Emley, Huddersfield, getting gradually higher, until it was eventually out of sight.

Section 40 called his wife, who also watched the object, he is adamant that it was not an aircraft.

I have made enquiries with Manchester Air Traffic Control, who confirmed that at that time a DC9 aircraft was over this area.

I submit this report for your information and request that it be passed to Chief Superintendent, Admin, for details to be passed to the Ministry of Defence, Department S4F (Air), Main Building, Whitehall, London, SW1A 2HB.

Section 40 [REDACTED]

Section 40 [REDACTED]

WPC [REDACTED]

2.

Chief Superintendent, Administration

Forwarded for attention at your office please in accordance with instructions dated 9.11.67. that all such reported sightings should be reported to you.

Section 40 [REDACTED]

Chief Superintendent
Kirklees

REPORT OF UNIDENTIFIED FLYING OBJECT

A. DATE, TIME AND DURATION OF SIGHTING

Local times to be quoted

06/2 - 8.00 p.m. Dalwhinnie - Aviemore at 8.30 p.m. for 35 - 45 minutes.

B. DESCRIPTION OF OBJECT

Number of objects, size, shape, colour, brightness, sound, smell, etc

One white light - size of car head light.

C. EXACT POSITION OF OBSERVER

Geographical location, indoors or outdoors, stationary or moving

One mile south of Dalwhinnie , A9 Inverness to Perth public road, District of Badenoch and Strathspey.

D. HOW OBSERVED

Naked eye, binoculars, other optical device, still or movie camera

Naked eye.

E. DIRECTION IN WHICH OBJECT WAS FIRST SEEN

A landmark may be more useful than a badly estimated bearing

Above hill on lefthand side of A9, one mile south of Dalwhinnie.

F. ANGULAR ELEVATION OF OBJECT

Estimated heights are unreliable

30% approximately.

G. DISTANCE OF OBJECT FROM OBSERVER

By reference to a known landmark wherever possible

2 miles approximately from roadside to peak of hill.

H. MOVEMENTS OF OBJECT

Changes in E,F and G may be of more use than estimates of course & speed

Stationary for 1/2 minutes at a time then sudden accelerated movements.

J. METEOROLOGICAL CONDITIONS DURING OBSERVATION

Moving clouds, haze, mist, etc

Moving clouds.

K./

Section 40

K. NEARBY OBJECTS

Telephone or high-voltage lines; reservoir, lake or dam; swamp or marsh; river; high buildings; tall chimneys; steeples; spires; television or radio masts; airfields; generating plant; factories; pits or other sites with floodlights or other lighting

None observed.

(Rough non urban hill country).
